Kit
cont
ains

- 2 Brackets
- 4 M6 x 16 socket screws
- 4 M6 Plastic washers
- 4 M6 Flat steel washers
- 4 M6 Ny-lock nuts

- You will find it easier to fit the belly pan with the bike on a paddock stand.
- First lay card or cloth under the bike to avoid damage to the belly pan.
- Following Fig 1 and 2 assemble the two brackets onto the engine.
- PLEASE NOTE Fig 3 : The O ring must be replaced in this position.
- Having fully tightened these two brackets the belly pan can now be assembled onto the bike. The plastic washers should be positioned under the socket screw heads.
